

## Bridge Letter for ISO 27001 & ISO 27701

Date: October 16, 2025

Subject: Bridge Letter for ISO 27001 & ISO 27701 – Change of company name and scope

This letter is to formally notify and provide assurance regarding the changes to our certified management system under ISO/IEC 27001:2022 (Information Security Management System) and ISO/IEC 27701:2019 (Privacy Information Management System).

### 1. Company Name Change

As of October 16, 2025, our organization has undergone a legal name change from **Acrolinx GmbH** to **Markup AI Europe GmbH**. This is an identity-preserving change and in name only with no impact on organizational structure, or management responsibility. All related documentation will be updated accordingly. This name change will be taken into account in our upcoming annual external audit for ISO 27001/27701 in December 2025.

### 2. Change of Scope

As part of our continued growth, the scope of our certified ISMS and PIMS will also be updated to better reflect our future operations: the new scope will formally also include the **Markup AI North America, Inc** (formerly: Acrolinx North America, Inc).

These changes are intended to ensure clarity, accuracy, and alignment with our operational activities. The controls, processes, and governance applied remain consistent with ISO 27001 and ISO 27701 requirements.

### 3. Assurance of Continued Compliance

We confirm that:

- Our Information Security and Privacy Management Systems remain fully implemented, effective, and in accordance with ISO 27001 and ISO 27701 requirements. Our newly launched product, the Markup AI platform, is designed, developed, and operated in exactly the same secure manner within the management systems as the Acrolinx SaaS platform.
- All policies, procedures, and controls will continue to apply under the new company names and updated scope.
- No adverse impact or reduction of control effectiveness will result from these changes.

We respectfully request that this bridging letter be accepted as confirmation of continuity. Supporting documentation will be available soon.

Yours faithfully,

*Britta Mühlenberg*

Britta Mühlenberg

Managing Director

Markup AI Europe GmbH
